Because he is suffering from bladder cancer Erol Zavar, who is right now in Sincan No 1 F-type prison, cell B1-6-52, is in no fit state to be in prison. His family applied to our association in 2003. Zavar's health situation, which we have closely monitored, is serious, and the truth is that he requires constant care. As long as he remains in prison, his life is at risk
